Bachelor of Engineering in Computer Systems Engineering

Quaid-e-Awam University of Engineering, Science & Technology [03/10/2019 – 25/01/2024]

City: Nawabshah | Country: Pakistan | Website: <https://quest.edu.pk/> | Final grade: 3.14

WORK EXPERIENCE

Globe Gigits (Pvt) Ltd

Executive UI/UX Designer

[01/07/2026 – Current]

Designing intuitive and engaging digital experiences across game dashboards, interactive websites, and mobile applications for diverse industries. Responsible for translating complex requirements into user-centered interfaces, developing scalable design systems, and creating visually compelling experiences that balance usability, functionality, and business objectives.

InterSys Ltd – Karachi, Pakistan

Executive UI/UX Designer

[26/05/2025 – 30/06/2026]

- Lead the design of user-centric digital experiences across multiple industries as an Executive UI/UX Designer at InterSys
- Design intuitive and engaging interfaces for mobile applications, author websites, e-book platforms, game UIs, and web-based products
- Transform complex ideas into functional and visually compelling design solutions
- Collaborate closely with cross-functional teams including developers, product managers, and stakeholders
- Enhance user satisfaction, usability, and overall product performance through effective UX strategies
- Maintain consistency in design systems, UX standards, and visual identity across projects

WebHR – Hyderabad, Pakistan

Digital Product Designer

[01/04/2024 – 24/05/2025]

- WebHR is a cloud-based HR management SaaS by Verge Systems Pvt. Ltd., streamlining HR, payroll, and workforce management for global businesses
- Contributed to the redesign of the WebHR website with a focus on usability, clarity, and conversion
- Led UI/UX improvements for WebHR, including enhanced user flows and overall user experience
- Designed intuitive UI/UX solutions for multiple SaaS products across different domains
- Worked on HireSide (recruitment management), PayDay (payroll management), and Somezing (mobile engagement platform)
- Contributed to Noor Tower (co-working space management), Smart Pupils (edtech platform), and MiHRah (HR analytics system)

WebMark – Hyderabad, Pakistan

UI/UX Designer

[01/08/2023 – 03/03/2024]

- Led end-to-end UI/UX design processes for multiple SaaS platforms and e-commerce stores, focusing on usability, functionality, and customer engagement
- Collaborated closely with product managers, developers, and stakeholders to translate business goals into intuitive digital experiences
- Conducted user research and created wireframes, prototypes, and high-fidelity designs using tools such as Figma and Adobe XD
- Developed and maintained design systems to ensure visual and functional consistency across products
- Optimized user flows and performed usability testing to improve overall user experience
- Iteratively refined designs based on user feedback, testing results, and analytics
- Delivered responsive and accessible interfaces aligned with industry best practices and emerging design trends

BitsPro – Hyderabad, Pakistan

UI/UX Design Intern

[02/01/2023 – 01/06/2023]

- Led UI/UX design for projects including Justuno, Hesco, AcuSense, UNV, and BitsPro, collaborating with cross-functional teams to align designs with client objectives
- Created wireframes, mockups, and interactive prototypes using Figma and Adobe XD to optimize usability across platforms
- Translated client requirements into visually appealing and intuitive design solutions, consistently meeting and exceeding expectations
- Implemented user feedback and conducted usability testing to enhance user satisfaction and engagement
- Developed design guidelines and style libraries to ensure brand consistency across projects
- Streamlined design workflows by maintaining reusable components and standardized UI elements

PROJECTS

[Current]

Redesigning modern vehicle infotainment UI to improve accessibility and ease of use. Designing a speed-adaptive infotainment system UI that dynamically transitions between states, prioritizing frequently used features for safe and effortless access while the vehicle is in motion
